The Performance HMO plan gives you the information you need to make good decisions about the Primary Care Physicians (PCPs) and medical groups you use. It also rewards you with lower costs when you shop wisely and choose a high-performing provider.

HOW THE PLAN WORKS

• Your PCP’s medical group is placed in either Network 1, Network 2, or Network 3.
• The medical groups are ranked based on how well they meet national standards of care (as shown in the California Office of the Patient Advocate’s (OPA’s) Health Care Quality Report Card) and what they charge for specific services (based on actual costs paid by the insurance company for VEBA members).
• Your copays vary by network. PCPs in Network 1 have the highest performance ratings and the lowest copays.
• You must get a referral to specialist services from your PCP, otherwise services may not be covered.

RULES FOR SELECTING YOUR NETWORK

• You and your family members must ALL enroll in the same network for the entire year (choose Network 1, Network 2, or Network 3).
• Your network choice is effective for the entire year; you cannot change your network unless you have a change in family status (including birth, adoption or marriage).
• You and your family members can select different PCPs and/or medical groups within the network you choose. You can also change PCPs or medical groups within the network you choose during the year. Visit vebaonline.com to find a PCP.

Important note about choosing a PCP: If you have changed your plan or added dependents, you and your family members must select a PCP. However, if you have recently been admitted to a medical facility, are pregnant, are currently undergoing treatment or are receiving durable medical equipment, please contact UnitedHealthcare’s customer service at 888-586-6365* before you choose a PCP.

*Please note: this is a new UHC HMO and PPO customer service phone number. It will be effective October 1, 2014. If you have questions before then, call 888-624-8822.

PRESCRIPTION DRUG BENEFITS

When you enroll in the Performance HMO plan, you get your prescription drug benefits through Express Scripts. You must use an Express Scripts participating pharmacy or the online mail order service. Depending on your prescription, you pay different copay amounts:

• Generics are least expensive.
• Preferred Brands are more expensive.
• Non-Preferred Brands are most expensive.

Getting Started

• You will receive an Express Scripts ID card when you first enroll in the plan (family members don’t receive custom ID cards and cards are not reissued each year, however you can print out a card at: express-scripts.com).
• You must show the Express Scripts ID card at the retail pharmacy to fill a prescription.
• If you purchase a brand-name drug when a generic alternative is available, you must pay the generic drug copay plus the difference in cost between the brand name and generic drug, even if your doctor writes “dispense as written” on the prescription.

Retail Pharmacy

• For the first three fills of your prescription drug, you pay the retail pharmacy copay.
• For the fourth and following refills, you will pay a higher cost if you continue to purchase it at a retail pharmacy other than Rite Aid. (See “Long-Term Prescriptions” below for ways to save money on the fourth and following refills.)

Long-term Prescriptions (for chronic conditions such as high blood pressure, diabetes, depression)

Save money on long-term prescription drugs by getting a 90-day supply of your prescription for only 2 copays as long as you fill it through:

1. Express Scripts Mail Order, visit express-scripts.com for more information
2. Rite Aid Retail Pharmacy, visit: riteaid.com/store-locator for a store near you

<th>Good</th>
<th>Reasonable</th>
<th>Fair</th>
<th>Higher</th>
<th>Poor</th>
<th>Highest</th>
</tr>
</thead>
<tbody>
<tr>
<td>★★★</td>
<td>★★★</td>
<td>★★★</td>
<td>★★</td>
<td>★★★</td>
<td>★★</td>
<td>★★★</td>
</tr>
</tbody>
</table>

Must meet these Performance Requirements to be included in Network 1.

### Performance = Quality of Care + Reasonable Cost

**Measuring Quality.** The Office of the Patient Advocate’s (OPA's) scores show how well medical groups meet nationally recognized standards for providing their patients with good care. Visit the OPA at www.opa.ca.gov for more information.

**Measuring Cost.** Cost information is based on actual costs paid by the insurance company for VEBA members.

Disclaimer: This summary is merely a brief description of the major benefits of the VEBA’s Performance HMO and is not intended to alter or expand benefits, rights or liabilities as set forth in the official plan document contracts. See Evidence of Coverage for details.
